Date: Tuesday, September 15, 2015 9:28:41 AM

Hello,

1. Right now the best time for me looks like a day during the second half of next week. (wed, thurs. Friday) I have reached out to our Cultural Preservation Department to check on their availability. I am just about 45 minutes away, so I have some flexibility.
2. Electronic or thumb drive would work best for me. I could bring a drive up or mail it to you to copy the data over if necessary, depending on the size of the files.

Thank you,

Jeremy Fincher

Subject: Wilcox Geophysics Field Action

Good Morning, the field team is at the Wilcox site this week and next week. While out in the field they will be conducting geophysics surveys. During the August 26, 2015, meeting, several of you expressed interest in visiting the site and also conducting a traditional cultural properties survey. In addition, there was an expressed interest in reviewing the geophysics data being collected. Please let me know how best to coordinate these activities.

1. Please let me know the days you wish to visit the site. Tom Kady is the field leader. If Todd or I cannot be in the field on the days of interest to accompany you and your team, Tom will be available.

2. Please let me know how to provide the geophysics data for your review. I need to verify with Tom how the data will be presented, so I can provide the best means of review.

thanks
